

## **Diversity, Equity, and Inclusion Scholar Application**

**Due 3/2/20 to Julieta Gruszko at [jgruszko@unc.edu](mailto:jgruszko@unc.edu)**

**Name:**

**Graduate School Start Date:**

**Expected Date of Graduation (if known):**

- In a total of two pages or less, propose one or more initiatives you'd like to pursue as the DEI Scholar. Include information about how your plan would contribute to the diversity, equity, or inclusivity of the UNC Physics and Astronomy Department or of the fields of Physics and Astronomy as a whole. Make sure to outline how you'd use the DEI budget (of up to \$4000 per year), the expected timeline of the project(s), and how you'd evaluate the success of your project(s). We suggest that you explain the project(s) in 1 page of text, and use the 2nd page to outline the budget, schedule, and evaluation plan.
- 
- In a paragraph (250 words or less), tell us about how your previous experiences have prepared you to be an effective DEI Scholar. We're interested in hearing about your leadership experience, previous experience as a teacher and/or mentor, outreach work, community organizing, and/or other service work, both in physics and outside of it, official and unofficial. This includes previous experiences that don't focus specifically on DEI issues or on STEM.
